Jose Maria

SOFTWARE ENGINEER

genieworld1044@gmail.com +63 9623206-014 Manila, Philippines

PROFILE

Innovative and results-driven Full Stack Developer with over 6 years of experience building modern web and mobile applications using C#, Blazor MAUI, MERN, MEVN, MEAN, Headless CMS, and Next.js. Adept at delivering scalable, secure, and user-friendly solutions across diverse industries, ensuring customer satisfaction and operational efficiency.

EDUCATION

Bachelor of Science in Computer Science, University of the Philippines

August 2015 – April 2019| Dlilman, Philippines

SKILLS

Programming L: JavaScript, C#, Python, TypeScript

Frontend: React.js, Vue.js, Anuglar.js, Next.js

Backend: Node.js, Express.js, .NET Core, Django

Mobile: Blazor MAUILeadership

Database: MongoDB, MySQL, PostgreSQL, Firebase

DevOps: Docker, CI/CD, Git/GitHub/GitLab

Other: RESTful APIs, GraphQL

PROFESSIONAL EXPERIENCE

Full Stack Developer

June 2021 – present | Tech Solutions Inc

- **Designed and developed** robust full-stack web and mobile applications utilizing Blazor MAUI, MERN, and Next.js, achieving a **25% increase in client retention rates** through enhanced user experiences and functionality.
- **Implemented and maintained** secure APIs with .NET Core and Node.js, facilitating seamless data transfer for over **5,000 active users** and resulting in a **30% reduction in latency** significantly improving application performance.
- **Automated deployment pipelines** using Docker and Jenkins, which led to a **40% decrease in deployment times**, streamlining development processes and enhancing team productivity.

Software Engineer

April 2019 – May 2021| Innovative Dev Hub

- **Led the migration** of legacy systems to a modern MEAN stack architecture, resulting in a **35% improvement in system performance**, enhancing overall application efficiency and user satisfaction.
- **Developed dynamic, content-driven websites** utilizing Strapi and Contentful CMS solutions, which achieved a **20% increase in website traffic**, driving greater user engagement and interaction.
- **Conducted comprehensive code reviews** and provided mentoring for junior developers, fostering a collaborative environment that enhanced team productivity by **15%** and promoted best coding practices.

KEY ACHIEVEMENTS

Top Innovator Award
Recognized for developing a groundbreaking compliance automation system, increasing efficiency by 35%.

High Uptime Achievement
Achieved 99.9% uptime for mission-critical software, enhancing application reliability.

Client Engagement Boost
Increased client engagement by 25% through a full-stack React and Node application.

Compliance Process Efficiency
Reduced processing time by 30% in compliance project using innovative methodologies.

Reliable Application Uptime
Achieved 99.9% application uptime for critical software, enhancing reliability and performance.

CERTIFICATES

- Microsoft Certified: Azure Developer Associate -2022
- AWS Certified Developer: Associate - 2021
- MongoDB Developer Certification: 2020
